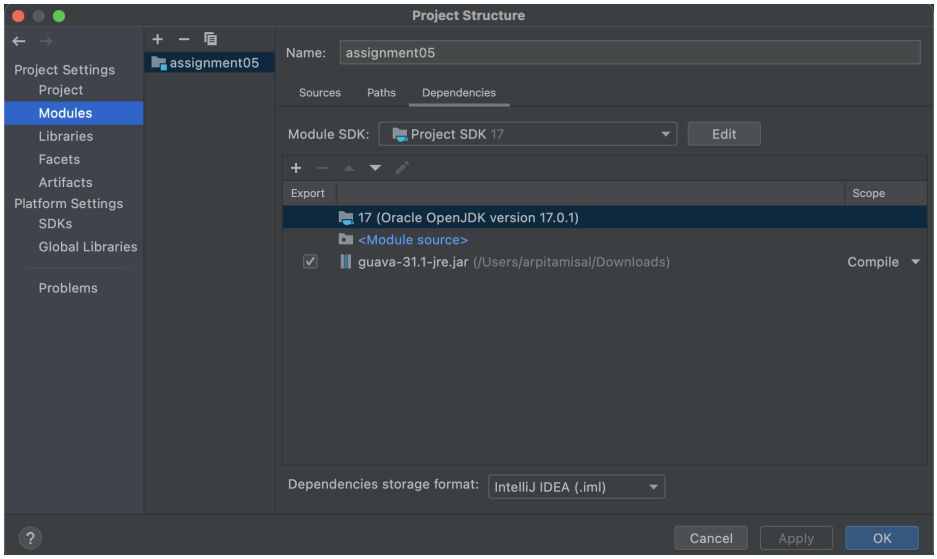
Assignment 05

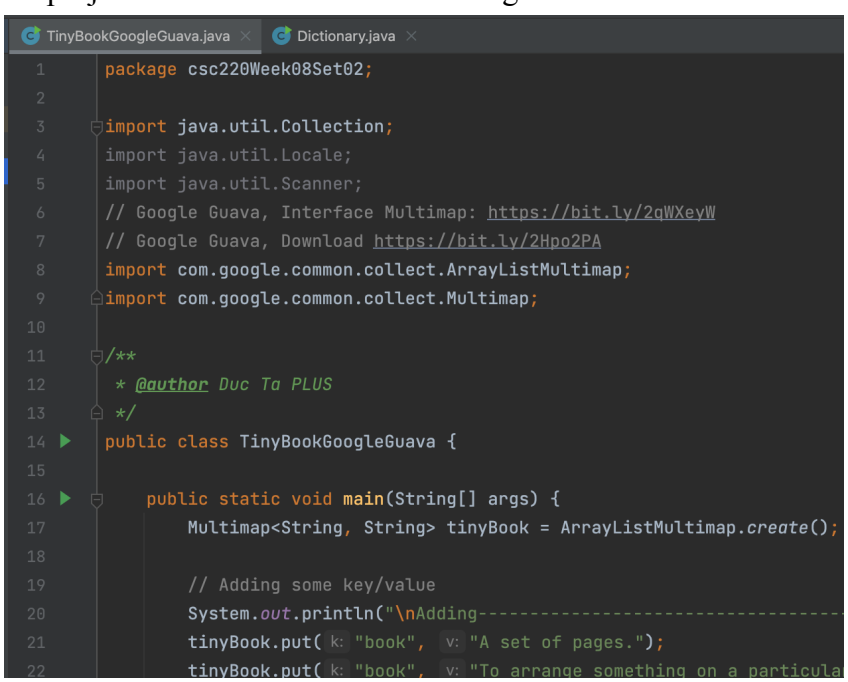
Due Date & Time: 04-22-2022 at 11:55 PM

Assignment 05

Part A:



After downloading the Google Guava jar file that was given to us on the file manager, I went to the project structure and found the Google Guava file and added it to my modules and applied it.



```java
package csc220Week08Set02;

import java.util.Collection;
import java.util.Locale;
import java.util.Scanner;
// Google Guava, Interface Multimap: https://bit.ly/2qWXeyW
// Google Guava, Download https://bit.ly/2Hpo2PA
import com.google.common.collect.ArrayListMultimap;
import com.google.common.collect.Multimap;

/**
 * @author Duc Ta PLUS
 */
public class TinyBookGoogleGuava {

    public static void main(String[] args) {
        Multimap<String, String> tinyBook = ArrayListMultimap.create();

        // Adding some key/value
        System.out.println("\nAdding----------
        tinyBook.put( k: "book",  v: "A set of pages.");
        tinyBook.put( k: "book",  v: "To arrange something on a particula
```

After that, I downloaded the code provided on the file manager for the TinyBookGoogleGuava and ran it on my IDE.

```
Dictionary   TinyBookGoogleGuava
/Library/Java/JavaVirtualMachines/jdk-17.0.1.jdk/Contents/Home

Adding--------------------------------------

Size----------------------------------------
5

Values--------------------------------------
[A set of pages., To arrange something on a particular date.]
[A piece of furniture with shelves.]

Iterate-------------------------------------
Can be ordered.
A set of pages.
To arrange something on a particular date.
A person who fastens the pages of books.
A piece of furniture with shelves.
